

Leasing Makes Good Business Sense

THE FASTEST,
EASIEST, MOST
COST-EFFECTIVE
WAY TO ACQUIRE
NEW EQUIPMENT

FIRSTCORP provides innovative financing to small and mid-size businesses nationally. We specialize in leasing information and production related equipment for items that typically range from \$5,000 to more than \$1,000,000.

Founded in 1988, FirstCorp provides equipment and software leasing solutions from its corporate headquarters located in Morton Grove, Illinois, and through a network of regional sales offices.

Leasing offers a wide variety of benefits that traditional financing simply cannot match. Whether you are an early stage company with limited credit lines or a mature company looking for flexibility, equipment leasing can offer you substantial advantages including:

Minimal Upfront Acquisition Costs.

Unlike conventional financing that often requires a down payment of 20% or more, leasing requires only a small advance rental payment. In addition, all taxes, delivery, and other miscellaneous costs can be included in the lease.

Conserves Working Capital.

Equipment leasing can ease the strain on working capital. You retain your available line of credit at other financial institutions for emergency needs, current cash flow purposes, investments, and other profit generating activities.

Tax Savings. When structured properly, lease payments are fully deductible for tax purposes, resulting in a lower after-tax cost than conventional financing.

Overcomes Budget Limitations.

Companies that are restricted to a yearly capital budget are able to acquire much-needed equipment with easily affordable rental payments. Lease payments are fixed, thereby eliminating any uncertainty about any future cost for use of the equipment.

Low Monthly Payments. Monthly lease payment terms range from 24 to 60 months and can be tailored to your exact financial requirements.

Obsolescence Protection. One of the key risks of equipment ownership is technological obsolescence. Leasing avoids the risk of obsolescence by transferring the risk to the lessor. In addition, you can add or upgrade equipment anytime during the term of the lease.

To apply for a lease or to receive a no-obligation payment quote, contact us today.
